The Dublin Evening Packet, a rank tory paper, says: The following letter, which we copy from the Freeman's Journal, has been mail bore the account. addressed by Mr. Duffy to a committee of gentlemen who, without his knowlede, undertook to raise a fund for his future defence. It speaks the feelings of an independent, high-souled man, who, whatever his political transgressions may have been, and we seek not to paliate them, would scorn to become classed with those "public paupers" who, subscriptions to be raised for their benefit.-Mr. Duffy is ruined in fortune, we believe, anxiety. The once warm precincts of a happy home are cold and desolate now. And ponent, ask, prove Charles Gavan Duffy to be a nobler man than any of those "dedicated beggars" who have exercised political leadership of late, and who have not been ashamed to relieve their "paltry poverty" by a penny

Gentlemen-I am very grateful for the zeal and considerate kindness which have influenced you in commencing the collection of a public fund for my defence; but I ask, as a personal favor, that you will proceed no further with it. I have an unconquerable objection to coming before my country in that atti-

dragged from the starving man?

It is a question of feeling entirely-I condemn nobody in the smallest degree who feels differently; I do not assert or assume that there is any principle whatever involved in it; but I know that to be a public convict would be a less painful and intolerable position for me than to be a public pauper.

It is quite true, as some of you have urged upon me, that I have lost my fortune in the public service; but it is true also that I made it in the public service; and true, moreover, that I feel able and willing, now, as ever, to live, and support all who have claims upon me, by my personal industry, when I am at liberty to exercise it-if ever I shall be so. It is the only course they or I have ever depended upon; and I wish to end as I began.

Trust me, however, I am not insensible to your generous kindness, nor likely to forget it. Believe me, gentlemen, Very faithfully yours,

CHARLES GAVAN DUFFY.

CAUTION EXTRA

CLAPP has engaged with young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townresume the BUTCHERING BUSINESS in said send's Sarsaparilla, denominating it GENUINE, Original, town on or about the 10th of October next. He etc. This Townsend is no doctor, and never was; but was takes occasion here to return his thanks to his old formerly a worker on railroads, canals, and the like. Yet he what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGI-WAL OLD Dr. Jacob Townsend's Sarsaparilla, having on

Principal Office, 102 Nassau-st., New York City.

DR. JACOB TOWNSEND THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has bug been known as the AUTHOR and DISCOVERER the GENUINE ORIGINAL " TOWNSEND SAR-SAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, pro-HEALING POWER.

Knowing, many years aga, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, THE Subscriber has and is now receiving his large stock of Drugs, Chemicals, &c., &c., selected by himself from the largest Importers and Manufactures in the Northern cities, consisting in next of the following. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if phor, do aloes soc, do do cape, do guaiac. do arabic, rad columbo, do gentian, do seneca, do rhsta- colatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties

Any person can boil or stew the root till they get a dark GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the mert proper: Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; Sulph Quinine, di arsenitic feroc potass, phos ammonia, denar opium, iodine, Citric acid, citrate in this way, it is made the most powerful agent in the of iron et quinine, soluble citrate of iron, valerinate | Cure of innumerable diseases.

> side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COM-PLAINT, and in RHEUMATISM, SCROFULA PILES, COSTIVENESS, BIL CUTANEOUS ERUP-TICNS, PIMPLES, BLOCTHES, and all affections IMPURITY OF THE BLOOD. It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal

circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashe

over the body. It has not its equal in Colds and Coughs;

relaxing stricture of the lungs, throat, and every other part But in nothing is its excellence more manifestly seen an FEMALE COMPLAINTS. It works wonders in cases of Fluor Albus or Whites, Full ing of the Womb, Obstructed, Suppressed, or Painful Menses Irregularity of the menstrum periods, and the like; and is as effectual in curing all the forms of Kidney Discusses.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and Nervous diseases and debility, and thus prevents or relieves a great variety of other mala dies, as Spinal irritation. Neuralgia, St. Vitus' Dance Swooning, Epileptic Fits, Conculsions, &c... It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion relieves the bowels of torpor and constipation, allays inflammation purifies the skin, equalises the circulation of the blood producing gentle warmth equally all over the body, and

the insensible perspiration; relaxes all strictures and tight ness, removes all obstructions, and invigorates the entire nervous system. Is not this then The medicine you pre-eminently need? But can any of these things be said of S. P. Townsend's por article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA

BLE of DETERIORATION, and NEVER SPOILS. while the other DOES; souring, fermenting, and blowing the bottles containing it into fragments; the sour, acid liquid exploding, and damaging other goods! Must not this horrible compound be poisonous to the system?—What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know that when lence, heartburn, palpitation of the heart, liver complaint diarrhœa, dysentery, colic, and corruption of the blood What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swell lugs, Fever Sores, and all ulcerations internal and external It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more of What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere tritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horring to make and sell, and invasted SOURING, FERMENTING, ACID "COM-POUND" OF S. P. TOWNSEND, and yet he would fain have it understood that Old Dr. Jacob Fownsend's Genuine Original Sarsaparilla, is an IMITA-

l'ION of his inferior preparation!! Heaven forbid that we should deal in an article which send's article! and which should bring down upon the Ole Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used 8. P. Townsend's FERMENTING COMPOUND. We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having

not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessiona man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are in capable of changes which might render them the AGENTS Disease instead of health. But what else should be expected from one who knows

person of some experience to cook and serve up even a he persons who manufacture medicine, designed for WEAR STOMACHS AND ENFEEBLED SYSTEMS, hould know well the medical properties of plants, the sest manner of securing and concentrating their healing irtues, also an extensive knowledge of the various disease which affect the human system, and how to adapt remedie o these diseases ! It is to arrest frauds upon the unfertunate, to pour bairs

into wounded humanity, to kindle hope in the despairing JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his Grand Universal Concentrated Remedy

I became entirely helpless, incapable of feeding myself, or turning in bed, or helping myself any way. In this state I continued antil January, 1848, when I began to mend a little and improve gradually till the 1st May. This amendment was only so far as to be able to feed myself, though still incapable of getting in or out of bed, or even turning in bed. I reble of getting in or out of bed, or even turning in red. I remained in this condition, with little or no change, until I fairly despaired of getting about again this season.
